SPECIAL BEGINNERS

Pattern taken
from our
new magazine
"I'm a beginner" 164

From the EDITOR

Welcome to a very festive issue of *Knit Now*. This month, we're really concentrating on things you can knit and give as Christmas presents – including our handy festive knits pull-out, which you'll find in the middle of the magazine. There are heaps of patterns which will knit up in no time, like Rachel Atkinson's gift bags (pg.50) and Meghan Fernandes's catwalk-inspired bow belt (pg.32). If you're pushed for time but still want something big and impressive, Jacqui Harding has got some great tips in her Supersize Knits article (pg.20), including a simple rug pattern to get you started!

We've started to include a couple of garment patterns and this issue we've got two jumpers from Michaela Moores. I knit one last weekend (pg.72) and I'll be putting photos of my version up on Ravelry.com soon. The other of Michaela's patterns is featured on the cover (Chestnuts Roasting, pg.62), and it's designed to be economical on yarn, so you can afford to use something really special, like the Eden Cottage hand-dyed yarn she used for the sample. If you want to know a little about Eden Cottage, turn to pg.40 for an interview with the woman behind those incredible colours, Victoria Magnus.

If you want to take your knitting at a steady pace in December, take a look at one of our two (very different) advent patterns – the Advent Scarf (pg.44) and the Advent Garland (pg.48). Both are designed for you to knit a little bit each day, so that by Christmas Eve you're all done and dusted. Very clever, very sensible and very different to my usual method of Christmas knitting, which has in the past seen me give my poor long-suffering mum a single sock and another still on the needles but 'nearly finished, honest!'.

We asked our designers.

With Christmas fast approaching, what's your advice for avoid

ANNA RICHARDSON

Know your limits – now is not the time to start learning Estonian lace or tackling your first Fair Isle jumper! Look for a small, manageable project – Ravelry is a great resource for this – and see how long it has taken others to complete. Block out the time (with a few days extra) sooner rather than later and stick to your schedule.

RHIAN DRINKWATER

Decide early on who you're going to knit for, and don't let yourself be tempted into adding to the list. That way madness lies – along with grafting sock toes at 1am on Christmas Day. Not that I've ever done that, of course.

RACHEL ATKINSON

I learnt my lesson where Christmas knitting is concerned a few years ago and now, rather than knitting for everyone, I work on items throughout the year and give them for birthdays instead. There's nothing worse than feeling obliged to knit for everyone and putting yourself under lots of unnecessary stress, after all knitting is supposed to be fun!

The Grapevine

The knitting world moves fast, so we've been keeping our ears to the ground to make sure you're kept in the loop. If it's new in knitting, you'll find it here

Jeanette Sloan knit kits

Jeanette is a strong favourite among British knitters and it's easy to see why – her designs are clever, timeless and super wearable. So when we heard she was launching her own yarn and knitting kits, we got very excited – and it looks like the excitement was totally justified. The first of a series of elegant knits in delicious colours will be Oriel, a lovely shrug in Baby Alpaca DK. Pictured here in Menthe, there are four other shades to choose from: Fuchsia, Chestnut, Bitter Choc and Chartreuse. Each Oriel kit will include a high-quality branded project bag, branded stitch markers, a PDF pattern (delivered by download), beads, buttons and all the yarn needed to complete the project, available to buy from www.JeanetteSloandesign.com with prices starting at £70.

SHEEP ON A TRAIN!

If you follow our Editor on Twitter (@KateHeppell), you'll know that she was part of the intrepid team who took their needles on the train between London and Edinburgh (and back) to complete a giant woolly Union Jack for Wool Week. We're happy to report that the trip was a huge success – much fun (and a little cake) was had by all and the completed flag was unveiled at Kings Cross station, after just a few minor panics somewhere between Newcastle and Doncaster! Congratulations to all the knitters, especially to Marie Wallin of Rowan, who designed the flag, and a million thanks to everyone at the Campaign for Wool and the British Wool Marketing Board for their support. **Turn to pg.41 for Kate's report from the train**

NEW YARNS

Wow, we've had a bumper crop of amazing new yarns this month! Here are some of our favourites...

CHILA VALLEY ALPACAS MIST

This new yarn is a blend of 70% white baby alpaca (from Ruth's British alpaca herd), with 30% grey Shetland. It's available in chunky and aran weights – perfect for warm winter knits.

£11.50 per 100g from
www.thelittlewoolcompany.com

BERGERE DE FRANCE RECYC

This is a truly unique idea – Berger has decided to save all the stray bits of fibre from its mill in France, which would otherwise be thrown away, and spin it all up into a new yarn! The result is an unexpectedly soft chunky yarn, which is at least 20% wool – good for the environment and super-cheap.

£1.50 per 50g ball from
www.myangelsknitting.co.uk

TOOTI FRUITI

Tooti Fruiti is a sumptuous single-ply 'thick and thin' Aran yarn, which is ideal for small projects. It knits up really quickly, making it perfect for last-minute Christmas knitting.

£8.25 per 100g skein from
www.thelittleknittingcompany.co.uk

Blacker Yarns has joined forces with the Short family of Swan Inlet Farm in the Falklands Islands, who have sent wool from their Merino sheep to The Natural Fibre Company in the UK. The yarn is incredibly smooth and delicious to knit with.

The Bookshelf

We knitters need an endless well of inspiration – so it's lucky that we have a constant stream of books to enjoy! Here are this month's best releases

TINY TREADS

By Joeli Caparco

Now, we'll admit to being a little biased here – Joeli is part of the *Knit Now* team, so of course we're going to love anything she publishes, but we really think that you will too. This little book is full of interesting sock patterns for small people – perfect for using up leftover sock yarn or trying out a new technique. So if you're a mum with a passion for sock knitting, this is the book for you.

THE GLAMOUR COLLECTION

By Maria Wallin, Martin Storey, Lisa Richardson, Gemma Atkinson & Jem Weston

If you want to impress at the office Christmas party, then run out and pick up this new Rowan pattern book. With 14 designs using Rowan's new Kidsilk Glamour yarn (a new twist on the popular Kidsilk Haze, with sparkles!), this collection packs a lot into a small space. There are the shawls and scarves you'd expect but also lots of beautiful lacy garments. They're all quite feminine and flattering, and many also have interesting construction with unexpected twists and slits.

FARMYARD KNITS

By Fiona Goble

For lovers of quirky toys, there are few better designers than Fiona Goble. Her sense of humour runs right the way through this book, which is a little like a storybook – starting in the morning with farmers Anna and Frank collecting eggs and milking the cows, following them through to the end of the day with their feet up in front of the fire with a cup of cocoa – with patterns all the way through of all of the characters. It's a wonderful idea and beautifully executed.

STAR LETTER!

Receives a £25 voucher from www.knittingwoolandyarn.co.uk

Dear Kate,
I thought you might like to see this picture. I made this dress for my daughter Judy 50 years ago. Her sister Anne wore it 32 years ago (yes, 18 years difference). Then Anne's daughter Isabel wore it six years ago.

Who will wear it next? We are keeping it safe for the next girl.

Maria, Ely

Wow, Maria! This is such a lovely family story and goes to show how very special hand-knit clothes are. Here's hoping for lots more little girls in your family in years to come! *Kate*

I RECENTLY BOUGHT *Knit Now* for the first time and liked it very much, particularly the separate pattern book, *Gifted Knits*. I would like to knit the Winter Wonderland stockings on page 62, but cannot find any reference to the needle size or information about the yarn. Please could you let me know what I need?

Elizabeth,
Warwickshire

I'm really sorry about this, Elizabeth. That was an oversight on my part. You'll need a chunky yarn and 6mm DPNs to knit these stockings. You could use finer yarn and needles, but your finished stocking will turn out smaller. *Kate*

Our resident expert is here to solve all your knitting problems. If you have a question, email Debbie at expert@knitnowmagazine.co.uk

I’M KNITTING THE scarf on the cover of the *Gifted Knits* supplement – it has four knit rows, one with k2tog and the following with a ‘yo, k’ pattern to create a pattern of holes, set within two plain knit rows. As I’m going along, my scarf is turning onto a trapezoid shape rather than a straight-edged rectangle!

I have the right number of stitches – no unexpected increases – and am knitting in aran wool. My tension is usually very even and I am used to knitting lace patterns. I’ve never had this happen before – any suggestions about what might be going wrong here?

Andrea, by email

Hi Andrea. First off – don’t worry, I don’t think you’re doing anything wrong! Because this pattern has so many left-leaning decreases concentrated together, the fabric will bias when it’s first knit. But, after it’s blocked and you’ve woven the contrast-colour yarn through all your holes, it will even out nicely.

Debbie

Rhythm And Form

Designer Stephen West is making serious waves in the online knitting community so we asked the podcaster APlayfulDay to track him down for an interview

In preparing to write this article, I rejected many opening sentences that introduce Stephen West and his fantastic eye for design. How do you sum up a man with as many talents as Stephen without it sounding trite? Stephen is part of a new generation of designers who self publish, jet set, teach, interact readily with their audiences online and whose name on the guest list at any knitting event causes a ripple to say the least. Has all this fame gone to his head? Not even remotely. Stephen is amiable and focused and when I asked him to share his design philosophy with *Knit Now* readers, he accepted with typical enthusiasm and charm.

WARM UP

Stephen West is originally from Tulsa, Oklahoma, discovering a deep love for knitting following a move to the Chicago area, when he started designing patterns. He now lives in Amsterdam where he attends the School for New Dance Development, a choreography programme, which he combines with his design work. The relationship between the two is evident in his commitment to playing with different variations of colour, texture, shape and rhythm in his design work. A typical WestKnits design (his publishing name) would feature the interaction between different lines, colour and shape all on one fabric, held together in a striking and stylish way. "Simple stitch patterns like stockinette and garter stitch are my favourite because they allow me to mindlessly knit or purl while I concentrate on the colourwork or direction of the

Above top: Eart & Sky
Above bottom: Old Range
Below left (both): Barndom

fabric," he says. Just like good choreography, it's a series of steps that link together with brilliant execution that leave you with the strongest of impressions.

His early patterns caused a stir in the knitting community with their boldness and unisex bias, and his designs regularly top the charts of favourite patterns on knitting and crochet site Ravelry. His were very different to the other accessories being offered at the time and four years on, Stephen's designs have progressed and become braver, edgier but no less accessible for knitters or fashion followers. Stephen is able to combine the pleasure of the knitting experience with an eye for flair and accent in the final product and believes that this preference makes the designs more approachable and casual.

INSPIRATION

"It's very personal and I like personality and unique details in design," he says. When I ask Stephen about his designs and their distinctive colour and shape, he readily admits that many of them are very simple. However, what I've always enjoyed about Stephen's work is his ability to understand the impact such simplicity can have and, in his own words: "They look more impressive than they actually are so

Above: Daybreak
Above right: Dustland hat & mitts
Near right: Clockwork
Far right: Herbivore

when you knit them you feel sassy and clever.” For all its indulgent nature, this is not accidental design. Stephen is a designer who understands the foundations of shaping and colour selection. Rather than studying design or design rules, Stephen works with what he wants to and then shares the product of that moment.

PLAY

With each new design that enters Ravelry, I picture Stephen travelling, new shawl in hand and examining the fabric as he ponders which turn to take next. From his description of the process, I cannot be far off as Stephen says that each design is affected by his location and experience at the time, his mood filtered into his knitting. It’s very evident that Stephen is a colour, yarn and knitting addict and that process is as equally important as product. When we’ve chatted in the past, Stephen has shared stories of the hours he’s spent in dance studios, knitting in his occasional breaks, and I can see that here is a creative individual who works through elements that intrigue him before pulling it all together and presenting a final piece.

On the subject of that colour and shape addiction, Stephen says it’s the simplicity of these elements that draws him in time and time again. He feels he can deliver simplicity with a punch by combining the two in strong ways and it affords him the

opportunity to showcase beautiful yarns. It’s this exploration that keeps his design ideas coming – and he really is incredibly prolific. He is best known for shawls but is now developing garments and bigger projects with the same colourful, bold concept.

EVOLUTION

So how does he take an idea and ensure that it results in a wearable piece by the end of the knitting? Stephen has a process of problem solving in order to figure out different ways to achieve a shape or effect that he has in mind. Unlike many designers, he rarely sketches his ideas first but instead prefers to cast on without a clear idea in mind. This is a very deliberate choice for a designer and is a much less controlled process as a result. So as the knitting develops, Stephen makes choices on the needles and is able to follow his interests as he goes. For Stephen, knitting is all about constructing a fabric: it’s always growing so you can change direction and add colours and textures along the way. His method is to build the fabric while leaving opportunities to pick up stitches and

continue in a different way.

Many of Stephen’s shawls are related in theme and when lined up you can see how an idea evolves. The shaping in the Herbivore shawl led to other shawls such as Pogona and Chadwick, which led to Blue Whale, Thendara and Bolting. As he says, “it’s like a family tree of shawls”. Curious, I asked Stephen if he likes to present design ideas exactly for the purpose of modification and he explained that he will sometimes size shawls specially to enable knitters to customise them and other times he will just give one example. He also admits that he has some designs he’d like to rework, but would ultimately rather invest time into exploring new territory.

So the question to us as knitters becomes what colours and variations will we choose to play with? Will we stick rigidly to Stephen’s patterns or join him on an adventure to create new and intriguing fabrics?

“ Boneyard Shawl was my first knitting design and inspired dozens of other top-down shawl designs. The construction of top-down shawl knitting is fun because you can often stop along the way or continue knitting for a custom-sized accessory. The stockinette stitch and garter ridges make this project ideal for travelling or TV knitting – simple and relaxing. ”

Start knitting...

Garter tab cast on

Cast on 3 sts.

Knit 6 rows.

At the end of last row, do not turn to work other side, rotate piece 90° clockwise so you're looking at the long side of the garter rectangle. Pick up and k3 sts (in the purl bump of each garter ridge). Rotate piece another 90°. Pick up and k3 sts along the cast-on edge. Turn to work WS row.

Set Up Row (WS): K3, p1, pm, p1, pm, p1, k3.

Row 1 (RS): K3, M1L, k to marker, M1R, sm, k1, sm, M1L, k to last 3 sts, M1R, k3.

Row 2 (WS): K3, p to last 3 sts, k3.

Repeat last 2 rows 4 more times. Then repeat Row 1 (RS) once more.

Next Row (WS): Knit.

Repeat from * 10 more times resulting in 11 ridges or repeat from * until work is desired length.

Garter stitch border

Next Row (RS): K3, M1L, k to marker, M1R, sm, k1, sm, M1L, k to last 3 sts, M1R, k3.

Next Row (WS): Knit.

Repeat last 2 rows 8 more times or until border is desired length.

Cast off all sts on following RS row as follows: [k2tog tbl, slip st back to left needle] to end of row.

Finishing: Weave in ends and block shawl to smooth the fabric.

Stephen's tips for customising your shawls

M1R & M1L are my favourite types of increase for a shawl, but I advise playing with other increases like backwards loop, knit front back, yarn over, knit into the back of the stitch from a row below. Each increase is slightly different and can be the best choice depending on the situation.

Refer to www.westknits.com/index.php/2011/07/garter-tab-cast-on/ for a tutorial on the garter tab cast on, or experiment to find your own preferred method.

Look for easy ways to throw in colour. Cast on with a contrasting colour for a defined edge and then knit with your main colour or accent the construction of a design with colour.

Substitute a worsted or chunky weight yarn for lace and fingering weight yarn suggestions. A little shawl can quickly become a massive wrap. I love lace patterns knit with chunky yarn.

When modifying a shawl, skim through the pattern first. Are there short row repeats? Does it instruct to knit until a certain number of inches/cm or a certain number of rows?

For the cast off, I like the 'k2tog tbl' cast-off. I often use a needle size one or two sizes larger than I used for the rest of the shawl. This bind off has flexibility, but it also has a stretch limit so it's very sturdy and it gives the appearance of a single crocheted edge on the border – very tidy. Again, you can experiment, but make sure you go for something with plenty of stretch.

SPECIAL INSTRUCTIONS

M1L: Make one left. With left needle, lift strand between sts from the front, knit through the back loop.

M1R: Make one right. With left needle, lift strand between sts from the back, knit through the front loop.

Supersize KNITS

With Christmas (and many knitting deadlines) fast approaching, we asked designer Jacqui Harding to give us some advice on super-chunky knits – and she's even written a simple pattern

material could be used for either – but the needles would have to be far bigger to knit a throw than for a rug. When sizing up lace patterns or complex cables, the bulk added by knitting stitches together or crossing them over is something that needs to be considered. Often, the solution is to use a proportionately larger needle or a less bulky yarn. Knowing that we often knit lace-weight yarns with 4mm needles and then stretch the work further in blocking, you can imagine that we might use needles that seem far too big for the material we're using. A great example is Anne Eunson's garden fence, knitted using curtain poles and string. It works because Anne considered the proportions of knitted lace and the practicalities needed for a garden fence.

We love knitting-related fundraising, so keep an eye out for Ingrid Warner and her big needles at knitting shows, or on her open days. The Big Knit project is raising money for Breakthrough Breast Cancer and for a donation you can stitch away on the biggest needles you're ever likely to come across – 4m long!

But if you want to take the plunge at home – how do you get started?

YARNS

You can use all sorts of things to knit big with – but they basically fall into two

categories. The first choice is to use one very thick strand. This can be wool top, as used in our pattern. The Icelandic wool top we used isn't dyed and comes in a range of gorgeous natural colours or you can get creative and use thick strips of fabric, rope, torn-up jeans – whatever comes to mind. Ingrid sells balls of Big Yarn made from colourful and hardwearing 100% wool woven fabric selvages, which would otherwise be waste products.

The second option is to multi-strand – a great stash buster. Holding between six and 20 yarns together at one time, loosely twist the yarns together as you knit. It helps to have all the balls of wool you're working from together in a flexi-tub or big box. Rachel John took this principle to extremes when she broke records to knit 1,000 strands together in 2006, making a fabric thick enough to use as a mattress.

NEEDLES

You might be lucky enough to have a local yarn store that stocks big needles. If not, they can be bought online in a variety of diameters and lengths of up to 1.5m! These are coated, so should remain splinter free and are generally made of tougher woods than pine so are more dent and damage resistant. However, you can always make your own. Buy a wooden broomstick handle and cut it into appropriate lengths, then plane

Have you noticed? In shops across the country, knitting is becoming a regular player – and not just for clothes. Homeware has woken up to the charms of knitting and big knits are leading the way. From the high street to high end, chunky handknits are very desirable, and the prices lean towards the luxury end too! Luckily for us, we can make our own designer throws and cushions at a fraction of the cost. Quickly too – when your gauge is around one stitch per inch, your knitting grows fast. A cushion cover will take a couple of hours and you can even knit a rug in a day!

Almost anything can be knit big – you just need to play around with scale and size up your needles in accordance with the material you're knitting. Do you want a sturdy, solid surface, as you might for a rug? Or do you want to make a throw, with a fabric that drapes and flows? The same

it to make a point and sand it smooth. The disadvantage to making your own is that you have to take whatever diameter of wood you can get and the handles are made of soft pine, so they are very easily dented.

GIVE IT A GO: SNUGGLY RUG

Our super-simple pattern is ideal to get you on your way. There are lots of other colours and breeds of wool top available at www.worldofwool.co.uk but we love the silvery colour of the Icelandic top used for our lovely squooshy rug. It's worth doing a practice swatch, as knitting with top takes a gentle touch. You'll need to tease out the top as you go: with your hands 20-30cm apart, gently pull until the top gives a little. This relaxes any areas that have been compacted. If you pull too hard and it breaks (easily done), overlap the two ends and gently pull them out until they're a similar diameter to the rest of the top. This gets easier with practice, I promise!

YOUR GUIDE TO: Perfect Palettes

Designing and choosing a successful colour scheme for your knits can be tricky, so we asked our resident expert Debbie Tomkies (herself something of a genius when it comes to colour) to give us her top tips

Colour stimulates our senses, triggers memories and can create powerful emotions. A well-chosen colour scheme can be the difference between

a garment that's an instant head-turner and one that is technically perfect but somehow fails to capture the imagination. Colour schemes can be developed in a variety of ways but if you're unsure where to start, this easy-to-follow guide will soon have you creating colourwork combinations with the wow factor!

Knitting normally uses the artist's colour wheel as the basis for mixing colours but colour theory goes much deeper than just a simple blend of colours, incorporating value, saturation and temperature. These form the building blocks of a successful colour scheme.

THE COLOUR WHEEL

First produced by Sir Isaac Newton in 1666, this wheel is likely to be the most familiar to us, being based on the relative wavelength of the various colours we can see. Starting with the three primary colours, these are further divided into

three secondary colours and again into six tertiary colours to give a 12-colour basic wheel.

Primary colours (P)

The pure hues: Three colours that cannot be made by mixing other shades – red, yellow and blue.

Secondary colours (S)

Two primary hues adjacent to each other on the colour wheel when mixed in equal proportion.

Red + yellow = orange

Blue + yellow = green

Blue + red = purple

Tertiary colours (T)

The result of mixing two adjacent secondary colours in equal proportion.

Red + orange = red-orange

Orange + yellow = orange-yellow

Yellow + green = yellow-green

Value

The relative lightness or darkness of a colour – also referred to as a grayscale image and very useful in 'seeing' colour in terms of value rather than just hue. Darker colours are achieved in yarn dyeing by adding black. Because there is no white

dye, lighter colours are produced by adding less dye. Note how when viewed in black and white, the colours have very different levels of light and darkness.

Temperature

This refers to whether a colour is warm or cool. Often the colour wheel is divided into two, with purple, blue and green forming the cool spectrum and red, yellow and orange the warm. But all colours have warm and cool variants. Blue with the slightest undertone of yellow, for example, will appear warmer than a blue with an undertone of purple.

Saturation (intensity)

This refers to the amount of pure hue present in the colour. Very vibrant, clear colours are normally described as fully saturated and duller colours are less saturated. This is often achieved by combining two complementary colours. Here, blue has been added to orange gradually to create rich rusts and terracotta, progressing through to brown.

Colour schemes

Fair Isle patterns traditionally use just two colours per row. Designs are often based around a mirrored pattern repeat, reflecting the image around a single row. This single row can be a useful means of lifting or softening a colour scheme.

When putting together your colours, three simple steps will help you choose a successful colourway.

Top tip

To help determine relative values, photograph or scan your yarns in black and white. No camera or scanner to hand? Squinting at the yarns will help to restrict your view and make relative values easier to see

1. SELECT YOUR COLOURS

Choose your preferred colours then split them into two groups: light and dark. (Remember that this refers to the value of the colour). Arrange the two groups from lightest to darkest.

2. NARROW DOWN YOUR SELECTION

Select the number of colours needed from each of your two groups. Place these together and decide whether there is sufficient contrast between the two groups. One group will be your background colour, the other your pattern colour. View in black and white if possible, too.

If your pattern has a centre line, consider choosing a separate colour to use for this row. This can be a bright colour to add zing to a subtle colour scheme. Alternatively, use a softer shade to tone down an otherwise bright colour scheme. Here, a white yarn has been chosen for a brightening effect.

Swatch, swatch, swatch!

Now you've chosen your colours, get swatching! Try several combinations. These swatches use the same colours but in different combinations. Note how different they look, just by swapping the colours around

Hints and tips

- For successful colour schemes, a safe option is to choose analogous colours. These are colours from the same colour family, such as blues, greens and yellows. Be sure to select shades with strong differences in value if you want your design to stand out against the background
- Use complementary colours carefully and consider varying the proportions of each one used in your design. Look to nature for inspiration. The purple and yellow of a pansy is beautiful but the yellow is only a small part of the whole, making the colours pop rather than compete for attention
- Decorators' paint charts are a great source of colour inspiration. The paint strips are particularly handy as colours can be placed next to each other and different combinations compared easily
- Look for free colour-mixing resources online. For free, blank colour wheels try www.color-wheel-artist.com/printable-color-wheels.html. Not long ago, most infants took their naps on the porch, in a bassinet or pram. My mum had such a pram in which I took leisurely naps in the fresh air and warm sun. This Vintage Baby Set was created as a throwback to that time when little ones needed a complete outfit to keep them warm and dry. It features an easy Fair Isle pattern and a twisted rib bodice on the cardigan for an heirloom feel

THE CHALLENGE: Knit by Numbers

Designer
Challenge

Every month, we challenge our Design Team to create something new using less than 100g of yarn. Here's who's risen to the occasion this time

About the yarn

Knit by Numbers is an exciting new 100% Merino wool yarn range in an abundance of shades designed and made by John Arbon of Fibre Harvest in North Devon. A double knit yarn in 100g hanks (approx 250m per hank), Knit by Numbers offers a beautiful range of complementary colours in a gradual tonal palette of 61 different shades (including natural white, which is KBN55). Each colour in the range has its own number, rather than an actual name or colour. The yarn is incredibly soft, with a springy structure that is really enjoyable to knit with.

Holloway Belt

Dusky Sky Socks

Grace Turban

Meet the designers...

Anna Richardson Grace Turban

I have a friend who exclusively knits vintage or vintage-inspired patterns and is continually suffering hand cramps from using teeny tiny needles. This 50s-style turban, named for Hollywood icon Grace Kelly, is my (relatively) large needle solution for her and other vintage enthusiasts.

Meghan Fernandes Holloway Belt

Sometimes you just need that little bit something extra to make an outfit work. Put a belt on it, I say! Holloway is a sweet, medium-width belt, great for styling over a dress, long top or coat. Knit it in a bright colour to make your outfit pop, or something more subdued for a little touch of sophistication.

Rhian Drinkwater Dusky Sky

I live in Bath with my husband and three-year-old son, who keeps me busy knitting robots and superheroes. Socks are what made me really fall in love with knitting (70 pairs and counting!), and DK socks make gorgeous comfy house socks – perfect for curling up on the sofa.

A bow belt is an essential addition to your wardrobe this season – you'll see them in the shops in leather or fabric, so why not make a woolly one?

We love Meghan's sense of style – her patterns are always so pretty and feminine. This little belt works really nicely with high-waisted skirts and trousers but it can also add a little waist definition to a bulky jumper or coat.

BELT

Cast on 15 sts.

Row 1: Sl1 wyib, *p1, k1; rep from * to end.

Row 2: Sl1 wyif, *k1, p1; rep from * to end.

Rep these two rows until piece measures 54 (64, 74, 84, 94) cm.

Cast off.

BOW

Cast on 3 sts.

Row 1 (RS): K1, m1R, k1, m1L, k1. 5 sts

Row 2 (WS): Purl.

Row 3: K1, m1R, k to last st, m1L, k1.

Rep Rows 2 & 3 six more times. 19 sts

Rep Row 2 once more.

Row 19: Knit.

Row 20: Purl.

Row 21: K1, ssk, k to last 3 sts, k2tog, k1.

Row 22: Purl.

Rep Rows 21 & 22 seven more times.

3 sts

Row 37: Knit.

Row 38: Purl.

Rep Rows 1-38 once more. Cast off.

Tie for bow

Cast on 4 sts.

Work in St st for 18 rows.

Cast off.

Finishing:

Fold ends of bow piece in to form bow shape. Sew cast-on and cast-off edges together. Wrap tie for bow around middle of bow and sew to secure. Attach bow to one end of belt using sewing thread of a similar

colour. Attach so that middle of bow is approximately 1cm in from the short edge of the belt.

On reverse (wrong side) of belt, sew hooks of hook and eye closures behind bow, two side by side just in from the short edge and two side by side 2cm in from edge. Sew eyes to correspond with hooks on the right side of the other end of belt.

SCHEMATIC

Hints and tips

- You don't necessarily have to knit your belt to the length advised in the pattern – simply knit until the belt measures about 3cm less than your actual waist measurement. Try adding a couple of centimetres if you're going to be wearing your belt over something bulky like a big sweater or a coat

SPECIAL INSTRUCTIONS

M1R: Lift the strand between the two stitches on the needles with the left needle from the back. Knit into the front of this new stitch.

M1L: Lift the strand between the two stitches on the needles with the left needle from the front. Knit into the back of this new stitch.

Keep your toes toasty-warm throughout winter with these simple bedsocks. If you've not knit socks before, this is a great place to start

The garter cuff and simple feather and fan design add just the right amount of interest to these bedsocks. They're named for the slightly lilac shade of blue yarn, which reminded the designer of a dusky evening sky.

Hints and tips

• When repeating the lace pattern on the sock cuff, you may find it helpful to put a stitch marker between each repeat of the pattern. As the stitch count changes, this can make it easier to keep track of where you are and spot any mistakes!

*Capture a little taste of old Hollywood glamour
with this 50s-inspired turban, which has a clever
construction that will keep you interested*

When working this turban, you begin by knitting an oval, which will form the centre of the crown. You then pick up stitches along the side of the oval and work back and forth, filling in the sides to create a nicely fitted crown. You then work long thin sections that are plaited together before being stitched around the brim at the end.

Completing plaits

With the left side moss st strip on your spare needle and the left side St st strip on your circular needle, wrap each moss st strip over and under the St st strip twice, then lay it on top once more, holding the open sts level. Cast off the two strips tog using three-needle method. Thread the right side's moss st strip through the hole between the base of the two left side strips, from WS to RS, before repeating the twist and cast-off instructions again. Being careful not to untwist either side, seam the cast-off ends tog.

Cover band

With RS face up, pu16 sts evenly across the middle of the front brim. Work in moss st, slipping the first st of every row, for 32 rows. Cast off k-wise. Wrap band over plait join and sew cast-off edge to the underside of the front brim. Place a few sts through the 3rd-5th rows of the band and into the apex of the central lace lozenge to pull it up onto the brim.

Finishing

With the turban slightly stretched, tack the uppermost sl st selvedge of the plaits along the brim on each side. Weave in ends.

The THREAD

Finding Inspiration Online

With so much inspiration available on the web, it's hard to know where to start looking. These are Kate's picks for the best of the net this month

IN THE GARDEN OF EDEN

It's no secret that I love hand-dyed yarns, and this month we're featuring one in particular on our cover garment. Michaela Moores's Chestnuts Roasting cardigan uses Eden Cottage Yarns, which are all hand-dyed by Victoria Magnus in her little cottage in the Eden Valley. She's one of my favourite yarny people, so I thought I'd grab her for a quick chat and introduce you to her!

Morning! How are you doing this week?

Great thanks! Keeping myself busy.

So, tell us all about Eden Cottage Yarns. How did it get started?

It basically just started because I couldn't find the colours I wanted for a project, so decided to dye my own and I was instantly hooked! Originally, the business was called Wild Fire Fibres when I was living in Manchester, but when I moved out to my little cottage in the beautiful Eden Valley, the new name was born.

What are some of the big challenges you've overcome in building your own yarn brand?

Mostly when I became self-employed full-time, I was suddenly single and I moved from Manchester to a cottage in rural Cumbria, and it was a really difficult (and probably silly) time to decide to run a full-time business! However it's grown rapidly in

the past 11 months, and the risk and hard work are well worth it!

And what are the best bits?

Doing what I'm passionate about for a living, my lovely, lovely customers, working with stunning fibres. Who could ask for more?

Where do you find inspiration for your colours?

Everywhere! I just look around me and see a world filled with colour and texture. At this time of year I get a bit obsessed with the autumn leaves. I really love flowers so they do tend to inspire the majority of my colourways. I love the dramatic, barren, rocky moorland that I can see from my cottage – that's the Pennines in the Eden Valley – they're different colours every day, which is fascinating and inspiring.

What do you think makes a really great yarn?

Just a stunning colour and fibre – it could be a smooth, bouncy Merino, or a fluffy baby alpaca, but they all have different qualities that make them great. I think if you can knit it in plain garter or stocking stitch and the subtle colour variation looks

gorgeous, then that says it all. I'm well known for only doing semi-solid or almost-solid colours – I just think they look better when knitted up than highly variegated colourways, especially for garments.

Do you think it's important for us to know where our yarn comes from?

To an extent, yes. My main concern is that it's ethically produced. Also I think it's just nice to know which country your yarn came from and where it's been dyed.

Do you have a knitting philosophy?

Be adventurous – it's only knitting!

Have you got anything coming up that you'd like our readers to know about?

Well I have a stand at Harrogate Knitting and Stitching show in November, which I'm really looking forward to. I also have a smart new website, which has recently gone live at www.edencottageyarns.co.uk, so visit the site over the next few months for new yarns, new colours and new patterns both from myself and some exciting other designers too!

kate's blog...

Sheep on a train

It feels like I've not stopped at all this month! I started off with the big Knitting and Stitching show at Ally Pally in London, which was really a lot of fun. It was our first year with a stand at the show, and getting a chance to meet and talk to so many knitters and get your feedback on how the magazine is shaping up was lovely – if a little tiring. Luckily I had something special planned to revive my little woolly heart – the Wool Train!

The Wool Train was one of the many exciting and woolly events that were planned for the Campaign for Wool's Wool Week this year, and I'd been invited to attend. The idea was that a bunch of knitters would jump on a train in London, knit feverishly all the way up to Edinburgh and back, and by the time we arrived back in Kings Cross the next day we'd have a giant woolly Union Jack.

Insular little southerner that I am, I'd never been further north than Newcastle (shameful, I know). So once we'd arrived in Edinburgh, while everyone else was getting dolled up for dinner, I tramped out into the rain with Lauren 'Deadly Knitshade' O'Farrell (she of the giant knitted squid and general all-round awesomeness) to explore the city. By a stroke of luck – we both swear that this was a complete coincidence – the first place we happened upon was a yarn shop, K1

Yarns! And what an unexpected delight that was – it's full to the brim with delicious yarns, many of which are only available at K1, from small producers, all dyed in incredible bold, bright colours. I had to pick up a few balls, along with the latest issues of some American knitting magazines, before we wandered off to buy some touristy tat (I got a Nessie fridge magnet with a springy head) and to see the castle, which was closed by this point in the evening. Spotting our hotel below, I decided we should brave a shortcut down some slightly treacherous steps, but it paid off – we were back in plenty of time to join the rest of our party for dinner, drinks and lots of woolly discussions.

The trip back seemed to pass even more quickly, with lots of sewing-up to be done. Once or twice I may have heard a few expletives from the front of the carriage, but by some miracle (or by Marie's sheer force of will, I'm not sure which), it all came together and the final, fabulous piece was proudly unfurled at Kings Cross, after which we all went our separate ways. I was, I'll admit, slightly tired after all that, but I was also totally pumped full of enthusiasm and determined to make the next year even more woolly and fabulous than the last – I can't wait to see what people have planned for Wool Week next year!

*This snugly scarf is
just the thing to get you
in the festive spirit –
just knit a little each
day and by Christmas
it'll be ready to give or
to wear!*

We love the idea of advent patterns,
which grow as you get closer to
Christmas and mark off each day.
We're going to be doing a knit-along for
this pattern online, so log on to Ravelry,
Facebook and Twitter and join in the fun!

Start knitting...

Advent Calendar Scarves allow knitters to
get ready for Christmas by knitting a little
bit of the pattern every day during Advent.
In this scarf, each day – except December
1st, 23rd and 24th – is represented by a
different mosaic knitting pattern. Mosaic
knitting is a great easy way to knit
colourwork, as only one strand of yarn is
held at a time. Once you've knit all 21
patterns, you're sure to find a new
favourite! Each pattern is worked over
24 stitches and an average of 24 rows,
and should take around an hour.

1st December

With MC, cast on 36 sts using the long
tail cast-on method.
Knit one row.

Rows 1-2: With CC, knit.

Rows 3-4: With MC, knit.

Rep Rows 1-4 five more times.

Row 25: With CC, k6, pm, k24, pm, k6.

Row 26: With CC, k6, p24, k6.

2nd December

Row 1: With MC, k6, *sl2, k2; rep from
* to marker, k6.

Row 2: With MC, k6, *p2, sl2 wyif; rep
from * to marker, k6.

Row 3: With CC, k6, k24, k6.

Row 4: With CC, k6, p24, k6.

Row 5: With MC, k6, *k2, sl2; rep from
* to marker, k6.

Row 6: With MC, k6, *sl2wyif, p2; rep from
* to marker, k6.

Row 7: With CC, k6, k24, k6.

Row 8: With CC, k6, p24, k6.

Rep Rows 1-8 twice more.

Note: This section sets up how WS rows
will be worked. Sts that were knit on
previous row will be purled and sts that
were slipped on previous row will be
slipped with yarn in front. Always work
WS rows with the same colour as previous
row. This will be referred to as “in pattern
as set” from now on.

3rd December

Row 1: With MC, k6, *sl1, k2; rep from *
to marker, k6.

6th December

Row 1: With CC, k6, *sl1, k5; rep from *
to marker, k6.

Row 2 & all WS rows: K6, work in pattern
as set, k6.

SPECIAL INSTRUCTIONS

All slipped stitches should be slipped
with the yarn held on the wrong side of
the scarf – that's at the back on RS
rows and at the front on WS rows.

When carrying the two colours up the
side of the scarf, try to be consistent
when bringing in the alternate colour.
There's no need to cut the yarn
between stripes, simply use the strand
hanging two rows below. Always join
either to the front or the back of the
working yarn for a smooth edge.

I love Christmas. So much so, in my second year of university I put up my Christmas tree in November! I love the idea of taking an hour a day away from all my gift knitting and working on something for myself, something special enough to wear on Christmas Day. My Advent Calendar Scarf will be under my tree, but addressed to me!

*This is our second
advent project for this
issue – using scraps of
yarn, you can knit a
little tree every day to
make a festive garland*

The pattern for this simple garland is
easy to adapt to use whichever yarn
you have to hand and each tree only
takes an hour or so to knit, making it the
perfect advent project – and once you've
knitted it, you can use it every year! Use
your imagination to make your trees
unique. Knit trees in single colours or
stripes or even use two strands of different-
coloured two-ply yarns together.

Start knitting...

All the trees can be worked in any of the
yarns, with the appropriate needle size. Mix
and match colours as you wish, just use
the same weight of yarn throughout each
tree. Make 24 trees in total.

Finishing

Weave in all ends and block the trees.
Sew a button to the top of each tree.

Twisted cord

To make a twisted cord, cut 2 lengths of
aran yarn each about 3 times longer than
the required finished length. Knot the
ends together at each end. Attach one
end to a hook or door handle. Insert a
knitting needle into the other end and
twist until the yarn is well twisted
together. Hold the centre of the cord,
bring the ends together and let it twist
together. Smooth out any uneven twists.
To fasten a tree to the cord, separate
the twisted strands and push the
button through. ●

*We love the idea of little
handmade gift bags.
You can use them year
after year, and this set
lets you try out different
colourwork methods*

This is a great opportunity to try out
different methods of colourwork on a
small scale. The samples shown in
the photo were knitted by a test knitter –
she used stranded knitting for the
snowflake, intarsia for the tree and Swiss
darning for the reindeer.

Start knitting...

Using Judy's Magic Cast On or figure 8 or
similar and MC, cast on 18 sts (9 sts
on each needle). Pm to mark beg of rnd
and halfway point of rnd (between 9th
and 10th st).

Rnd 1: Knit.

Rnd 2: [K1, m1, k to 1 st before marker,
m1, k1, sm] twice. 4 sts inc'd

Rep Rnds 1 & 2 until you have 38 sts, then
knit 2 rnds.

Next Rnd: *K2 in MC, work Row 1 from
chart; rep from * to end.

Cont working as set until chart is complete.
Break off CC and work with MC only.
Knit 5 rnds.

Next Rnd (eyelets): *K2tog, yo; rep
from * to end.
Knit 10 rnds.

SCHEMATIC

Break off MC and change to CC.

Cast off as follows: *Using the cable cast-
on method, cast on 2 sts, cast off 4 sts
and sl the single st from the RH needle
back to the LH needle without twisting
it; rep from * to end.

The snowflake sample shows the picot
cast-off. If you prefer a plainer top, simply
cast off loosely k-wise in MC (reindeer
sample) or CC (tree sample).

Finishing:

Break yarn and weave in ends. Gently
steam block to even out your sts.

Drawstring

You can create a drawstring using a
number of different methods. You can
crochet a single chain to the desired
length, create an i-cord, plait or braid
strands of yarn together, or use fancy
ribbon or cord. If you have any pretty or
sparkly beads to hand, tie them onto the
ends for added festiveness. Thread the
drawstring through the eyelet row and pull
tight to close.

This is a fun
and quick knit
featuring lots
of interesting
techniques that
will be useful to have in your knitting
repertoire. Why not knit one for
everyone in your household, pop
in some little treats and hang them
from your tree?

Hints and tips

- The DK yarn is knitted at a tighter tension than recommended in order to produce a firm fabric for your bag
- By changing the yarn thickness to a lighter or heavier weight and adjusting your needles accordingly, you can easily produce a smaller or larger bag and use up odds and ends or leftovers from your stash in the process. Do also feel free to start with a larger number of cast-on stitches or increase to a higher number to make the bag bigger and add more motifs

Introduce a little Scandinavian style to your winter wardrobe with this cosy snood, knit in frosty colours

This snood from Artesano is a simple knit – the trick is in getting your tension just so with the colourwork. When working the stranded colourwork pattern, try to keep one colour on top and the other on the bottom all the way round, without twisting the yarns as you work, unless you're stranding over more than three or four stitches. This will create a nice even finish and it uses less yarn as well.

Start knitting...

Using 4mm needles and MC, cast on 143 sts.

Row 1 (RS): Knit.

Row 2: K5, p to last 5 sts, k5.

These two rows establish the St st main section and G st border.

Row 3: K5-MC, work Chart 1 in St st to last 5 sts, K5-MC. Repeat section in chart is worked 33 times, the last st is worked once.

Row 3 establishes chart. Cont working from chart as set, maintaining G st borders until chart is complete.

Next row (WS): K5-MC, p2-MC [work Chart 2, p4-MC] 6 times, work Chart 2, p2-MC, k5-MC.

This row establishes chart. Cont working from chart as set, maintaining G st borders until chart is complete.

Rep from * to * eight times more, or until work measures approx 97cm from cast on, ending after a 32nd row.

Cast off in MC.

Finishing: Block finished piece and then, with RS together, join cast-on to cast-off edge. Weave in ends.

CHART 2

KEY

Hints and tips

- For a neat edge, slip the first st of every row
- For a seamless join, work a provisional cast on in MC and instead of casting off, either graft the two ends together or work a three-needle cast-off

Hints and tips

- Sew up each piece as you go along. That way, it doesn't seem such a chore towards the end
- If choosing a different yarn weight, use needles that are two sizes smaller than stated on the band to make sure the stuffing doesn't show through the stitches

Hints and tips

- When working stripes, carry the yarn not in use up the side. Twist it once round the working yarn at the start of each RS row to hold it neatly in place
- The shawl is made sideways, working back and forth on long circular needles
- You'll cast on a lot of stitches but only work 15 stripes! When casting on, make counting easier by placing a stitch marker after every 50 stitches

Winter Shadows WRAP

This simple wrap is just a dream to knit, worked in delicious luxury yarns. It's just plain stocking stitch, but the final piece is classic and glamorous

If you're hunting for the perfect gift for mums, sisters and aunts, look no further. It's worked flat, but the rows are very long, so we recommend using a circular needle just for the length.

Start knitting...

Bottom border

Using MC and smaller circular needles, cast on 269 sts.

Row 1 (RS): Sl1, *k1, p1; rep from * to end.

Rep Row 1 five more times.

Stripes

Change to larger circular needles.

Starting with a RS row, work in St st, slipping the first st of every row.

At the same time, work the following stripe pattern:

6 rows CC, 6 rows MC, 10 rows CC, 4 rows MC, 4 rows CC, 8 rows MC, 6 rows CC, 10 rows MC, 10 rows CC, 4 rows MC, 8 rows CC, 6 rows MC, 4 rows CC, 2 rows MC, 6 rows CC.

Top border

Cut CC, leaving 15cm tail.

Change to smaller circular needles and MC.

Work Row 1 six times.

Cast off loosely.

Finishing

Weave in ends. Wet block to measurements. Leave to dry thoroughly. The ends of the stripes will curl under slightly when unpinned, hiding the yarn carried up the side.

I remember being frustrated by the lack of gorgeous knits for novices. All the glamorous stuff seemed beyond my abilities. I believe knitting doesn't have to be difficult to be beautiful. Inspired by winter trees silhouetted against cold skies, this perfect evening shawl plays with luxurious contrasts made in simple stripes. The opaque silk/wool gives weight and drape, adding warmth for a winter evening. The sheer mohair/silk stripes give a hint of what's hiding underneath. The irregular widths of the stripes keep it modern and interesting to knit

Chestnuts ROASTING

This pattern is pure elegance – the drape of the silk-blend yarn is just incredible and the simple shape is really flattering

Simple stitch patterns are often best for highlighting beautiful hand-dyed yarns. This knit and purl pattern doesn't detract from this gorgeous Eden Cottage colourway but remains interesting to knit. The pattern is all about creating a fabric that drapes and moves beautifully – it's impossible to capture in photos how incredible this cardigan feels to wear!

Start knitting...

SPECIAL INSTRUCTIONS

Work Buttonhole: Over the next 4 stitches, work a 2-stitch buttonhole using a method of your choice. The Tulips method is recommended for stability.

Pl10l/pl10r: Pleat 10 sts leaning right/left. Slip 10 sts onto each of two DPNs. Holding DPNs at front/back of work, fold the sts into a pleat shape, rotating the centre DPN 180° clockwise/anticlockwise. Using RH needle, knit through the first stitch on

the DPNs and LH needle in one movement to create one new stitch, as if working a three-needle bind off.

I wanted to make a cardigan perfect for snuggling up in at the end of a special day with your favourite company. Chestnuts Roasting is soft and simple, but luxurious enough for many special winter occasions. Its wide neckline is great for showing off shapely necks and shoulders. I can't wait to make one to wear to my home of Antwerp's legendary Christmas market and have a chestnut snack!

These mitts can easily be knitted to have full fingers for extra warmth if you wish. Simply knit until each finger is nearly to your fingertips, then work decrease rounds (k2tog every stitch) until 5 or 6 sts remain, then break yarn, thread through remaining stitches and pull tight to fasten.

Start knitting...

LEFT HAND

Using the backwards loop method and CC, cast on 60 sts. Join to work in the rnd, being careful not to twist.

Knit 7 rnds.

Next rnd: *K2tog, yo; rep from * to end.

Knit 7 rnds

Rnd 16: Knit each stitch together with corresponding loop from backward loop cast on. 60 sts

Join MC but do not break CC.

Rnd 17: With MC, knit.

Rnds 18 & 19: Work the two set up rnds from Acorn chart.

Rnds 20-30: Work Rnds 3-13 of Acorn Chart.

Continue working Acorn Chart and begin working the thumb as follows:

Thumb placement

Rnds 31-33: K3 in patt, k3 in MC, work in patt to end.

Rnd 34: K5 in MC, pm, work thumb gusset chart, pm, work in patt to end.

Keeping acorns pattern correct, cont to work the thumb gusset chart between the markers until all rows of the thumb gusset are complete.

After Row 25 of thumb gusset chart, remove markers and place gusset stitches onto waste yarn, complete rnd in pattern.

Cont to work Acorn chart in the round over the hand stitches for a further 3cm.

Little finger placement

Next Rnd: K32 in patt, k12 in patt and place these 12 sts on waste yarn, k to

SPECIAL INSTRUCTIONS

Backward loop cast on: This method creates a loopier edge that is easier to work together with the live stitches on the joining round that completes the picot edge. Don't worry if your cast on doesn't look neat at first, you won't see it once the glove is finished. Make a slip knot and place onto LH needle. With working yarn, create loop around right thumb, slip loop onto LH needle and pull working yarn to tighten; rep from * until required number of sts have been worked.

Hints and tips

- You might find it helpful to pick up the loops from the cast on using a spare DPN before knitting them together with the live stitches
- You may find it helpful to put the un-worked hand stitches on waste yarn while you work the index finger

end of rnd in patt.

Next Rnd: Break CC and cont in MC only. K5, this is new beg of rnd.

Index finger

Next Rnd: K12, cast on 1 st using backward loop, k6 sts from end of rnd.

Cont in the rnd over these 19 sts for 9 more rnds. Break MC and rejoin CC working 3 rows G st beginning with a k rnd. Cast off p-wise.

Middle finger

Rejoin MC at base of index finger by picking up 1 st where stitch was cast on. K8 live stitches, cast on 1 st, k8 from other side of hand. Work in the rnd as for index finger.

Third finger

Rejoin MC at base of middle finger picking up 1 st where a stitch was cast on. K7 live stitches, cast on 1, k7 stitches from other side of hand. Work in the round as for index finger.

Little finger

Rejoin MC at base of third finger picking up 1 stitch where one was cast on. Knit 12 sts from waste yarn making a kfb in last stitch. Complete as for other fingers.

Thumb

Rejoin MC picking up 2 stitches in the gap. Knit across stitches on waste yarn and work in the round for 10 rounds. Break MC and rejoin CC working 3 rows in G st beg with a k rnd. Cast off p-wise.

RIGHT HAND

Work as for left until Row 14 of Acorn chart.

Thumb placement

Rnds 14-16: K51 in patt, k3 in MC, patt to end.

Rnd 17: K52 in patt, pm, work thumb gusset chart, pm, patt to end.

Keeping acorns pattern correct, cont to work the thumb gusset chart between the markers until all rows of the thumb gusset are complete.

After Row 20 of thumb gusset, remove markers and place gusset sts onto spare yarn, complete rnd in pattern.

Cont to work Acorn chart in the round over the hand stitches for a further 3cm.

Little finger placement

Next Rnd: K16 in patt, k12 and place these 12 sts on waste yarn. K24 in patt, new end of round. Break CC.

Index finger

In MC k9, cast on 1 using backward loop, k9 from end of previous rnd. Cont in the rnd on these 19 sts for 9 more rounds, break MC yarn and rejoin CC. Work 3 rnds in G st beg with a K rnd. Cast off p-wise.

Complete remaining fingers as for left hand.

Finishing: Weave in ends and block.

I'm always knitting gloves and hand-warmers as I have very bad circulation and feel the cold so easily! In this pair I blended my love of gloves and colourwork with a stranded design inspired by the squirrels collecting the acorns falling from the live oak I planted in my mother's garden as a child. Knitted in a luscious and warm alpaca yarn, these are perfect for those late autumn days when there is a definite nip in the air

Blitzen

Regular readers will know that Knit Now is all about quick knits – but that needn't rule out garments. Our Editor knitted one of these in a weekend!

We've shown this jumper here in a short-sleeved version, which is a cute option for layering or teaming with cute skirts – for a more snugly option, why not make the sleeves full length by simply working the St st section for longer? If you're doing this, remember to buy extra yarn.

Start knitting...

Using the long tail cast on method, cast on 128 (136, 148, 164, 180, 200, 208, 212) sts. Join to work in the rnd, being careful not to twist. PM to mark beg of rnd.

Beginning with a purl round, work 6 rnds in G st.
Work even in St st until sweater measures 5cm from cast on edge.

Decrease for waist

Set Up Rnd: K10 (11, 13, 15, 16, 18, 20, 21), pm, k11 (12, 11, 11, 12, 13, 12, 11), pm, k22 (22, 26, 30, 34, 38, 40, 42), pm, k11 (12, 11, 11, 12, 13, 12, 11), pm, k10 (11, 13, 15, 16, 18, 20, 21), pm, k14 (15, 17, 20, 22, 25, 27, 28), pm, k 11 (12, 11, 11, 12, 13, 12, 11), pm, k14 (14, 18, 20, 22, 24, 26, 28), pm, k11 (12, 11, 11, 12, 13, 12, 11), k to end.

When Kate asked me to do a garment design for Christmas, my favourite time of year, I jumped at the chance to do something special to wear on Christmas Day. With its festive colour and flattering fit, this is a top to be photographed in, and the striking collar is sure to detract from my post-dinner tummy!

Hints and tips

■ This project requires deceptively little yarn and is surprisingly quick to make – perfect as a last-minute outfit for Christmas Day!

■ Purling through the front loop is a useful technique to have in your repertoire. It's a little fiddly at first, but don't worry, the effects are more than worth it

■ This garment is made with only a small amount of ease, and is fitted to your curves. It's important to make sure you're knitting the right size – time to get the tape measure out!

■ If you want an easy substitution for a 100% wool yarn, Adriafl Stella Alpina is available in the same colours and knits to the same tension as Adriafl Globe Uni

Dancing LAWN

This stunning wrap is designed to show off a really special skein of yarn, so why not indulge yourself or someone you love?

This design is very wide, asking you to cast on 226 sts at the beginning. It's worked flat, but we recommend using a circular needle for the length. You might want to use stitch markers between the repeats so you can always tell where you are in the pattern. When casting on you can easily keep count and place markers at the same time by placing them as follows:

Cast on 2 sts, pm, cast on 24 sts, pm, [cast on 33 sts, pm] six times, cast on 2 sts.

This pattern is named after the place of celebration in the Narnia books, where all the weird and wonderful Narnian creatures gather to dance the night away. When I was swatching for the cable I was using a virulent green yarn that reminded me of the evil queen from The Silver Chair (also known as the Lady of the Green Kirtle), but it turns out she doesn't have a proper name (that I can find) otherwise it would have been named after her

Swing TUNIC

This flattering tunic is a must-have for your wardrobe all year round. It's great for layering in the winter and the cotton yarn is incredibly soft

Wendy's Supreme Luxury Cotton is one of our favourite yarns here in the office and it's definitely our go-to choice for cotton yarns. It works really well in this design, adding drape and shine to the fabric. If you fancy a warmer, woollier version, Wendy's Merino DK knits to the same tension.

THE REVIEW: Luxury lightweight yarns

Every month, we get together with a group of real knitters to test out some yarn and ask for their honest opinions. Here are the results...

This month saw the review visit Stourbridge Sticks & String to review some luxurious 4-ply and DK weight yarns. For the first time, this was a blind tasting – the reviewers just had some basic information about each yarn (weight, fibre content and price), so the scores really are totally impartial. The group has about 30 members and meets every other Friday afternoon and on a Saturday/Sunday about four times a year. They describe themselves as ‘a varied group who always have a great time’. One of their members is the owner of Superknits and is a yarn dyer extraordinaire! You can find out more about the group on Ravelry by searching for Stourbridge Sticks & String.

Austermann Palila
1 ball in silver (CC)
£4.25 per ball from
www.woollymadlydeeply.com

About the yarn

Kid Silk: Lace; 225m per
25g ball; 75% kid mohair,
25% silk Palalia: Lace; 395m
per 25g ball; 100% polyester

Tension

Measured over 10cm
in lace pattern

Needles used

5mm straight, 30cm

For a full list of abbreviations,
please see the glossary on page 95

This pretty lace wrap is elevated to another level of glam with the addition of a single strand of super-sparkly thread

Palila has tiny sequins on a metallised thread, so it's lighter than lace and yet adds sparkle without the weight of traditional sparkly yarns. The Kid Silk on its own gives a lovely halo and together with some sparkle should make you feel like the belle of the ball! Go for a dramatic contrast such as the French navy and silver shown here, or how about a more delicate combination of ivory and gold for a wedding?

Start knitting...

Using one strand of MC, cast on 48 sts using long tail cast on. Knit 1 row.

Next Row: K4, work Chart A to last 4 sts, k4. This row sets pattern – 4 st garter stitch border on each side of chart pattern. Continue working in pattern as set until Rows 1-6 of Chart A have been worked three times total.

Then continue in pattern as set but begin working stripe pattern as follows:

Work 18 rows using one strand each of MC and CC.

I love a dramatic wrap to go with my little black dress, something of a statement piece to draw the eye upward and add a bit of glamour to a simple outfit. I liked the idea of stranding yarns together and chose kid silk to go with Palila

The Basics

Whether you're new to knitting or just need a quick refresher, these pages will tell you all you need to know about the essential techniques

Cast on

Step 1
Make a long-tailed slip knot and place it on the needle. Hold the needle in your right hand. Pass the ball end of yarn over the index finger, under the middle and over the third finger. Holding the free end in the left hand, wrap it around the left thumb from front to back.

Step 2
Insert the needle through the thumb loop from front to back.

Step 3
Wrap the ball end under and around the needle.

Step 4
Pull a new loop through the thumb loop by passing the thumb loop over the end of the needle. Remove thumb and tighten the new loop on the needle by pulling the free end. Continue in this way until you have cast on the required number of stitches.

Knit

Step 1
Hold the needle with the cast on stitches in your left hand, and insert the right-hand needle into the front of the stitch from left to right.

Step 2
Pass the yarn under and around the right-hand needle.

Step 3
Pull the new loop on the right-hand needle through the stitch on the left-hand needle.

Step 4
Slip the stitch off the left-hand needle. One knit stitch is completed.

Purl

Step 1
Hold the needle with the cast on stitches in your left hand, and insert the right-hand needle into the front of the stitch from right to left.

Step 2
Pass the yarn over and around the right-hand needle.

Step 3
Pull the new loop on the right-hand needle through the stitch on the left-hand needle.

Step 4
Slip the stitch off the left-hand needle. One stitch is completed.

Cast off

Knit two stitches. Insert the tip of the left-hand needle into the front of the first stitch on the right-hand needle.

Lift this stitch over the second stitch and off the needle.

One stitch is left on the right-hand needle.

Knit the next stitch and lift the second stitch over this and off the needle. Continue in this way until one stitch remains on the right-hand needle. Break yarn, thread the tail through the last stitch and pull tight.

K2tog

Knit to where the decrease is to be, insert the right-hand needle knitwise through the next two stitches and knit them as one stitch.

P2tog

Purl to where the decrease is to be, insert the right-hand needle purlwise through the next two stitches and purl them as one stitch.

SSK

Slip two stitches knitwise one at a time from left-hand needle to right-hand needle.

Insert the left-hand needle from left to right through the fronts of these two stitches and knit together as one stitch.

Yarn over

Bring the yarn forward (yfwd or yf) between the two needles. Knit the next stitch, taking the yarn over the right needle.

Take the yarn back over the right-hand needle and forward between the needles to bring yarn round needle (yrn). Purl the next stitch.

Bring yarn forward between the needles, back over the right-hand needle and forward again between the needles – yarn forward and round needle (yfrn). Purl next stitch.

Take the yarn back over the right-hand needle – yarn over needle (yon). Knit the next stitch.

Make one

Knit to where the increase is to be made. Insert the tip of the left-hand needle under the running thread from back to front.

Knit this loop through the front to twist it.

If you are working M1 on a purl row, you purl the loop through the front.

Instructions taken from *The Knitter's Bible*, priced £14.99, available from www.rucraft.co.uk

KNITTING A TENSION SQUARE

1. Cast on the number of stitches given in the pattern to measure 10cm plus half as many again.
2. Work 15cm in stocking stitch and cast off loosely.
3. Use the same method you will use to press the finished item to block your tension square (see below).
4. Lay your fabric on a flat surface without stretching it. Use a ruler to measure 2.5cm in from one edge and mark with a pin.
5. Measure 10cm horizontally from the first pin and mark with another pin.
6. Avoiding the cast on and cast off edges, which may distort the fabric, mark the same measurements again, vertically.
7. Work out your tension by counting the number of stitches and rows between the pins. If there are more than the

pattern states, the square is too small: make another square with a needle a size larger. If there are fewer stitches than stated in the pattern, the square is too big: make another square using a needle a size smaller.

MATTRESS STITCH

To join two pieces of stocking stitch lay the pieces flat, right sides up and together. Secure the pieces together by bringing the needle through from back to front at the bottom of the right-hand piece, taking the needle through the left-hand piece from back to front and back under the right-hand piece and out at the front. This makes a figure-of-eight with the yarn and gives a neat edge.

Take the needle across and under the left-hand piece and bring it through to the front from the same hole as the securing stitch. Now take the needle back to the right-hand piece and bring it up under the

above the first entry point. Take the needle back to the left-hand piece, insert the needle back into the stitch and take it up under the next two horizontal strands. Pull up the stitches to tighten them and draw the two edges together. Continue until seam is complete.

GRAFTING (KITCHENER STITCH)

First divide the stitches equally between two DPNs. Cut the yarn leaving enough to graft the stitches with. Thread the yarn onto a darning needle. Insert the needle purlwise into the first stitch on the front needle and

pull the yarn through. Insert the needle knitwise into the first stitch on the back needle and pull the yarn through.

Insert the needle knitwise into the first stitch on the front needle and slip the stitch off the needle. Insert the needle purlwise into the next stitch on the front needle and pull the yarn through. Insert the needle purlwise into the first stitch on the back needle and slip this stitch off the needle. Insert the needle knitwise into the next stitch on the back needle and pull the yarn through.

Repeat from * to * until all the stitches have been worked.

Blocking

The process of pinning and pressing knitted pieces is called blocking and it will make your finished projects look as good as possible. First sew in yarn ends, then steam or wet press as appropriate.

Steam pressing

This method is used for natural yarns or those with a high wool content. Care should be taken with long-haired fibres such as mohair and angora, or items with textured stitches, to ensure the steaming process does not matt the fibres or flatten the pattern. Check the information on the ball band and test-press a tension square first if you have any doubts.

Use rustproof large-headed pins to pin out each piece to its exact measurements, wrong side up, on your ironing board or blocking board. Lay a clean cotton cloth over your knitting to protect it.

Set the iron to an appropriate heat setting for your yarn. Hold the iron close to the cotton cloth and allow the steam to permeate. Do not press the iron onto the knitted fabric. Remove the cloth and allow knitting to dry before unpinning.

Wet pressing

This method is suitable for synthetics and fancy yarns. Pin out your knitting as for steam pressing. Wet a clean cloth and squeeze out the excess water until it is just damp. Place the cloth over your knitting and leave to dry. Remove the cloth when it is completely dry and ensure the knitted pieces are also dry before unpinning them.
